

# The OmniFlex™ Trolley-Bucket

The patented OmniFlex™ Trolley-Bucket is the most versatile mop bucket available today. For starters, it makes an ideal mop bucket/wringer combo for traditional cleaning. But, it also does way more. Its self-dispensing spigot is perfect for applying fresh cleaning solution, degreaser, stripper, floor finish and gym finish quickly and flawlessly. Plus, when you're ready, simply add OmniFlex™ components to build a custom hygienic cleaning system that fits your exact needs.

Considering all that the Trolley-Bucket offers, why would you ever buy another standard mop bucket again?

## PERFECT FOR:

Food Service  
Healthcare  
Education  
Retail  
Sports/Fitness

Daily Floor Cleaning  
Finishing Floors  
Stripping Floors  
Degreasing Kitchens  
Applying Gym Floor Finish

Built-in Tool Holders around the Rim

## HIGHLIGHTS

- As the basic building block of the OmniFlex Crossover Cleaning System, it can be converted in seconds to a Dispense-and-Vac, Spray-and-Vac, or AutoVac.
- The self-dispensing solution bucket ensures that only fresh, clean solution is ever used.
- Spigot throttle manages the amount of solution used, reducing chemical costs while producing better results.
- Designed for flawless waxing, the precise flow of floor finish from the spigot along with smooth microfiber application provide a level coat of finish with no bubbles or streaks, eliminating costly redo's.
- It accommodates up to five bins to hold an assortment of tools, microfiber pads, and supplies.
- Sturdy handle includes posts for storage and wrapping.
- Sight gauge shows water level when bucket is covered by bins.

# Why is the Trolley-Bucket Better?

Most conventional mop buckets contain dirty, contaminated water, which mops simply spread around, leaving surfaces soiled, wet and dangerous. With the OmniFlex Trolley-Bucket, the solution remains fresh for more effective cleaning and fewer closet trips. Simply changing to a clean microfiber pad removes the soil and reduces the possibility of spreading soils and contamination.

Also, applying the correct amount of solution is important for optimum and cost-effective floor care. With the OmniFlex Trolley-Bucket, the operator controls exactly how much solution is applied by using the spigot throttle and walking at the correct pace. The wider the throttle is opened, the greater the flow – the faster the pace, the less solution goes onto the floor. This self-dispensing capability also makes the Trolley-Bucket ideal for stripping and waxing applications too.

Perhaps best of all, the Trolley-Bucket converts to a Dispense-and-Vac, Spray-and-Vac or AutoVac system in seconds for high-performance hygienic green cleaning.
