

Stop the Mop.

KAIVAC® UNIVAC™ SYSTEM

KAIVAC®

KAIVAC® UNIVAC™ CLEANING SYSTEM

CLEANER, SAFER FLOORS

Don't let dirty, greasy floors drive customers and employees away — or cause them to fall. The **UniVac system** is designed to tackle even the most built up grime that antiquated mops just can't. Developed using rigorous scientific measurement, it gets floors clean enough to eat from.

Just dispense solution through the throttle spigot, rapidly spread it across the floor with the ergo speed scrubber and vacuum up all the soil and water, and... DONE. It's truly that simple. Floors are left clean, dry and hygienic, reducing cost and cleaning times, conserving water and chemicals, and decreasing slip-and-fall accidents to create a safer working environment. Plus, the ease of use, time savings and improved ergonomics make it an employee favorite.

Kind of a no-brainer, right?

FEATURES + BENEFITS

- + Reduces cleaning times and chemical costs while producing better results
- + Up to 60x better at removing soil and contaminants than mopping
- + Reduces the risk of costly slip-and-fall accidents
- + Cuts water use by up to 75%, and reduces chemical use by 2/3 or more
- + Easy to maintain and repair — no technician needed
- + Optimized for high grease environments like food service and industrial facilities
- + Also great for restroom floors, grouted floors, flood recovery, spill pick-up and weather-related cleaning

KAIVAC UNIVAC CLEANING SYSTEM

The Univac system offers a simple approach to cleaner, safer floors in a nimble single-piece package, ideal for congested areas with limited storage. Its extreme cleaning capabilities enable hygienic results in even the heaviest soil and grease conditions, leaving floors really clean and bone dry.

VARIABLE FLOW SPIGOT (NOT SHOWN)

Manages exact amount of solution dispensed to the floor, maximizing efficiency while producing better results.

10-GALLON SOLUTION/ RECOVERY TANK

Holds 10 gallons of solution in tank. Minimizes footprint for easy storage and maneuverability.

ERGONOMIC SPEED SPREADER

Rapidly spreads the cleaning solution that was dispensed through the spigot.

FLEXIBLE POWER OPTIONS

LITHIUM-ION BATTERY

Allows free and quick movement at any time of the day throughout the facility.

CORDED

Optional AC model and GFCI extension cord enables long-range cleaning.

See kaivac.com for more information and complete specifications

Protected by multiple US patents. Multiple patents pending.

ONE-PIECE VACUUM WAND WITH GROUT BRUSH AND SQUEEGEE HEAD

Allows users to deep clean grouted floors and under equipment and seating.

POWERFUL WET VACUUM

Thoroughly removes soils and contaminants.

CRUSH-PROOF HOSE

Allows the vacuum to reach near and far.

EASY-FLUSHING DUMP HOSE

Allows quick and ergonomic draining of vacuum tank contents into a suitable toilet or sink.
